

To whom it may concern:

This letter serves to confirm that Scytale AI Ltd (hereafter referred to as Scytale) acknowledges and affirms that Diagnocat (hereafter refer to as 'the Company') has completed the necessary steps to achieve compliance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

Diagnocat is committed to protecting the privacy and security of the Protected Health Information (PHI) entrusted to them.

Diagnocat's HIPAA compliance efforts encompass the following key areas:

- Privacy Rule: Diagnocat has established comprehensive policies and procedures to safeguard PHI, including limitations on use and disclosure, patient access rights, and breach notification requirements (45 CFR Parts 164.500, 164.512, 164.520, 164.524).
- Security Rule: Diagnocat has implemented robust security measures to protect PHI from unauthorized access, use, disclosure, alteration, or destruction (45 CFR Part 164, Subpart C). This includes technical, physical, and administrative safeguards, such as encryption, access controls, risk assessments, and employee training.
- Enforcement Rule: Diagnocat has designated a HIPAA Privacy Officer and trained workforce to ensure compliance with the HIPAA regulations (45 CFR Part 160, Subparts A and C). Diagnocat also maintains documentation of their compliance efforts and conducts regular audits which are lead by third-party compliance provider and consulting team, Scytale, to identify and address any potential issues.

Furthermore, Diagnocat is committed to continuous improvement in their HIPAA compliance program. They regularly review and update their policies and procedures to reflect changes in the regulations and industry best practices. Diagnocat also provides ongoing training to their workforce on HIPAA requirements and best practices for protecting PHI.

By achieving HIPAA compliance, Diagnocat demonstrates their commitment to the privacy and security of their health information. They are proud to be a trusted partner in safeguarding health data.
